## THE SOURCE OF THE SOUL AND THE SPIRIT

All life was born from the vibration frequency of *the Source of the Soul*. Every living being is connected to *the Divine Mother* of all life. The central sun of the galaxy is the source of all living things on the planet Gaia. In the planetary system, the Moon is the manifestation of the energy of *the Source of the Soul*. The vibration of the Moon corresponds to the tone A sharp in a chamber pitch of A=429.33 Hz.

*The Source of the Spirit* creates the space in which life can unfold and develop. Every galaxy is connected to *the Creative Source* of all being. In the planetary system, Jupiter is the manifestation of *the Source of the Spirit*. The vibration of Jupiter corresponds to the tone F sharp in a chamber pitch of A=436.60 Hz.

Soul and spirit are two different vibrational frequencies that together add up to the whole. The soul follows the feeling of the female principle of *the Source of the Soul*. The spirit follows the thoughts of the male principle of *the Source of the Spirit*. The connection and the unity of soul and spirit is love.

In the symbol of THE SOURCE OF THE SOUL AND THE SPIRIT, the inner circle symbolizes the soul that inhabits the body.

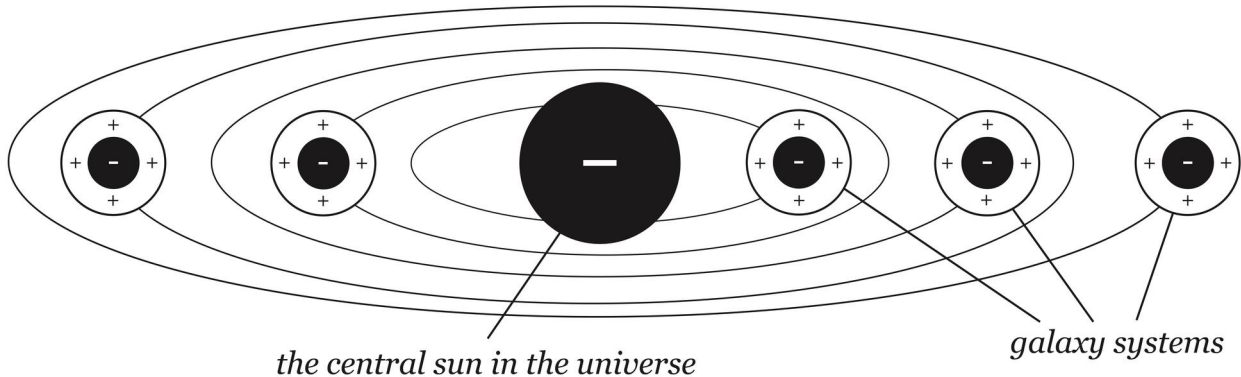

The square symbolizes the 4 elements of the body in which the soul can gain experiences as a living being.

The outer circle symbolizes the universe, the space of *the Spiritual Creator*.

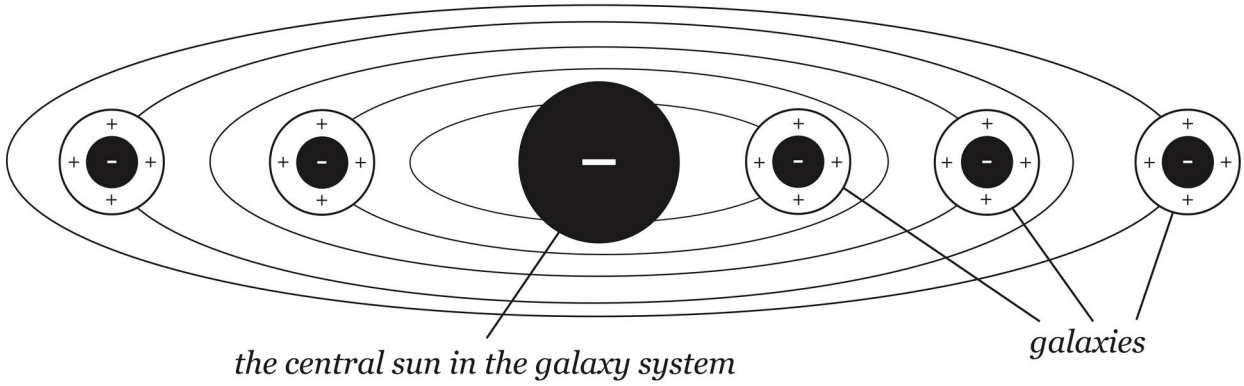

## THE SOULICAL AND MENTAL ATTRACTIONS

Soul (-) and spirit (+) are two energetic forces that condition each other and attract each other. Gravity is the attraction of male and female energy. The soul is the passive, feminine force and the spirit is the active, masculine force in the universe. The spirit is creating and the soul is experiencing. The "dark energy" is the gravitational force of *the Source of the Soul* in time and space, which attracts the "dark matter" and holds it together in the space of the universe. The "dark matter" is the energy of *the Source of the Spirit*.

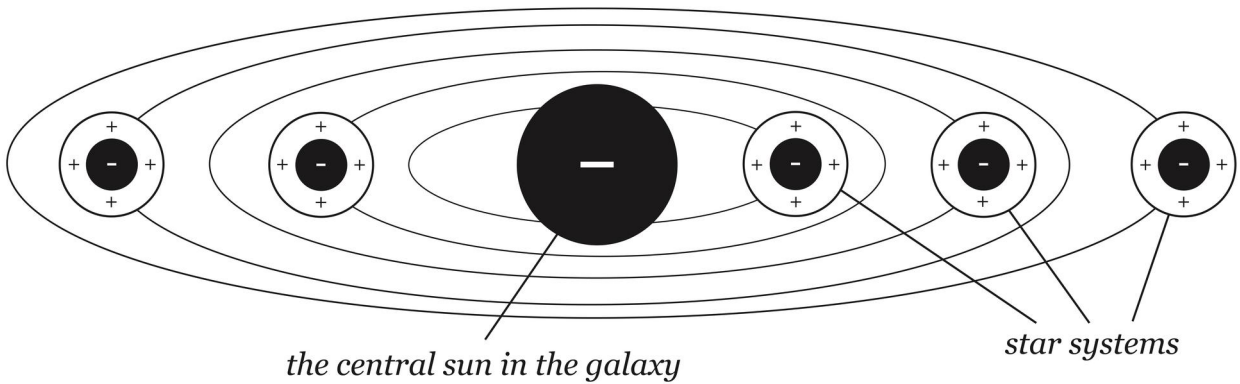

### The soulical and mental attractions in the universe

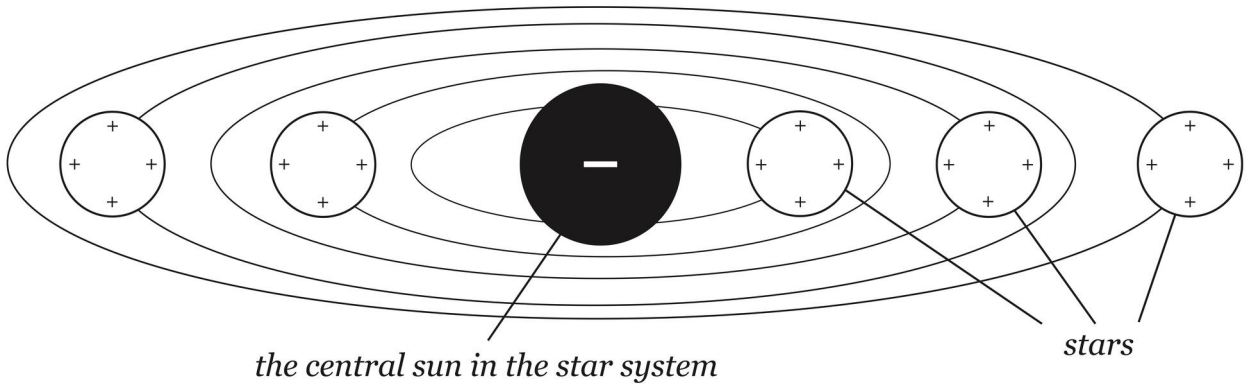

## The soulical and mental attractions in the galaxy system

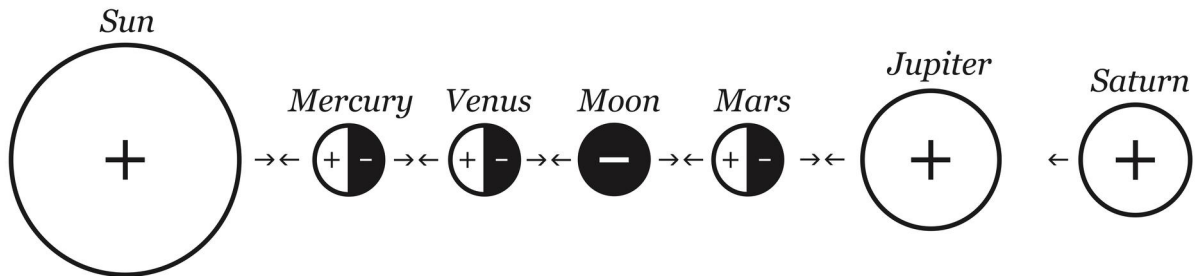

## The soulical and mental attractions in the galaxy

## The soulical and mental attractions in the star system

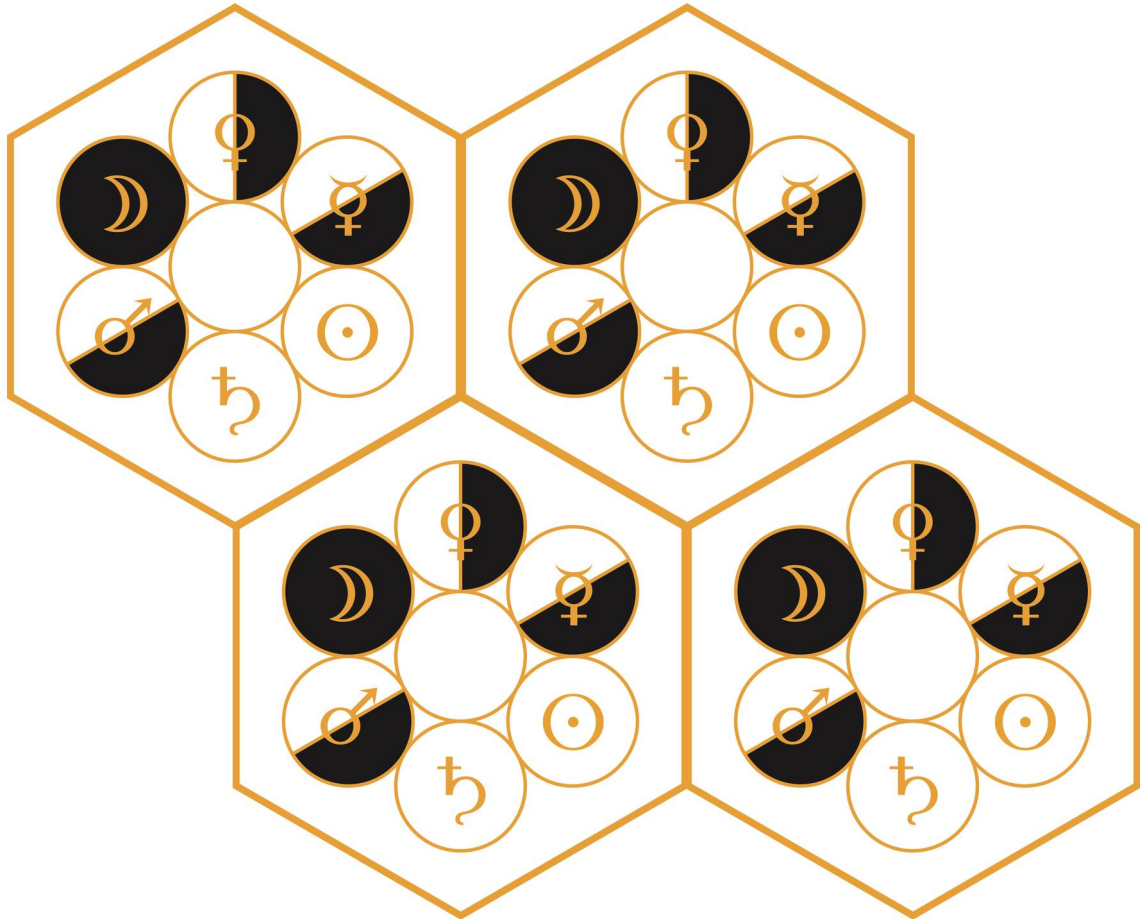

## The forces of attraction in the planetary system

Jupiter is the spiritual energy in the planetary system. Sun and Saturn are mental energies. Mercury, Venus and Mars are soulical and mental energies. The Moon is the energy of the soul in the planetary system.

## The soulical and mental attractions of body cells

## **The attraction forces of soul partners and dual souls**

Soul partners incarnate together on the creation level of the 3rd dimension. Injuries in the emotional body connect soul partners with each other and require further incarnations in the 3rd dimension in order to dissolve the karma. If the karma is resolved and the experiences in the 3rd dimension are completed, then the soul is ready for the reunion with the dual soul in the 5th dimension.

Dual souls are 2 souls with the same soul vibration. If it is intended with the soul plan that dual souls ascend with Gaia, it is possible for dual souls to find together in front of the planetary ascent.
